Site Assessments  
for Schools and  
Academies**

Octane Draincare proud to partner

**SETL**

# Complimentary Site Visits

At Octane Draincare, we understand the wide-ranging responsibilities of School Estates and Facilities Managers. From maintaining safe and compliant infrastructure to forward planning for capital projects, your time is valuable. That is why we now offer complimentary site assessments to schools and academies as part of our commitment to delivering clear, practical support.

These no-cost visits allow our drainage specialists to review your site in person, assess current conditions, and provide professional advice ahead of any planned surveys or works. Whether you are considering a CCTV investigation, or drainage maintenance, our team ensures you begin with accurate insight and a clear path forward.

## Reducing Risk Through Proactive Engagement

Engaging with our drainage professionals at the earliest stage helps to reduce risk and avoid common issues. From identifying hidden access challenges to flagging early signs of damage or non-compliance, our site visits help estates teams plan with confidence. The result is fewer delays, smoother project delivery, and greater value.

All site visits are carried out by experienced, DBS-checked engineers who understand the unique demands of school environments. We operate safely, discreetly, and in full alignment with safeguarding and site protocols.

## Why Choose Octane Draincare

**Complimentary School Assessments** – Free drainage assessments for schools and academies.

**Transparent Project Guidance** – Clear and honest guidance before any formal works begin.

**Specialist Drainage Expertise** – Experts in school drainage systems and survey reporting.

**Comprehensive Service Offering** – Full-service provider covering CCTV, Jet Vac, emergency response and more.

**Proven Sector Trust** – Trusted by local authorities, MATs and compliance contractors.

## Supporting Smarter Project Planning

Our goal is to help you plan and deliver projects with confidence. From initial assessments to full surveys and remedial works, Octane Draincare provides reliable, professional drainage support at every stage
